Rotary Heart Lake – follow up from discussion at Feb 14th meeting
Re: Bicycle clinic suggestion for Alloo Public School

cc. Councillor John Hutton

Dear Fiona,

We discussed at our committee meeting, your excellent suggestion about organizing a bike clinic for Alloo Public School. Our members who sit on the Peel Bike Education Workgroup were present for the discussion.

Unfortunately, it is premature to hold a clinic until curriculum has been developed, which will not be completed this year. The workgroup is addressing an active transportation program to expand bicycle education for students of all ages.

Mayfield Road is being reconfigured and we are eagerly anticipating bicycle facilities in the construction. For safety reasons, we should also delay holding a clinic.

We appreciate your enthusiasm for biking for your students, and do hope that many will be able to come out with their families to our **Bike the Creek** event on June 21st.
