Subject: Bike the Creek

Congratulations on delivering such a successful event yesterday. I know a lot of work took place behind the scenes to make this event happen.

Having participated in the event, my kids and I really enjoyed the event. The people that I spoke to during the ride and overheard talking to each other, all seemed to share the same opinion for the event.

The registration was well organized, the distribution of riders, marshals and interpretive stations was perfect and the BBQ lunch was delicious.

I think this event has a great deal of potential and will continue to grow in popularity in future years.

Thank you for all your time and contributions to this event.
