

PedalWise

Do you love cycling and want to share your knowledge? Would you like to meet new people and have fun cycling?

Volunteer this summer as a Mentor in the PedalWise program!

The *'PedalWise'* community cycling program is designed to develop community cycling knowledge, practical cycling skills and confidence and community connections while promoting healthy living and having fun cycling. PedalWise volunteer cycling mentors are matched with people interested in gaining cycling knowledge and skills. Mentors meet new people, gain leadership and facilitation skills and help build a cycling community in Brampton.

PedalWise provides program participants access to cycling mentors, bicycles and safety equipment. PedalWise participants must be 18 years of age or older and know how to ride a bicycle. Bicycles will be provided to program participants who do not have access to one.

PedalWise is a free program supported by the Community Bike Centre, the Community Environment Alliance, Bike Brampton, the Toronto Centre for Active Transportation (Clean Air Partnership) and the Region of Peel.

Mentors should be enthusiastic and experienced cyclists with knowledge of Brampton bicycle routes and trails. Mentors must be aged 18 or over. A police check is required (paid for by program).

To volunteer or for more information please contact the Community Bike Centre at 7-222 Advance Blvd, Brampton 905-463-9941 or email Ranjana Mitra at rmitra@communityenvironment.org
