

Bike Boosters

Biking is a fun activity that gives you the freedom to go places. It's a form of transportation that's good for your body and mind, and good for the planet.

The 2-V-1 Helmet Salute

Two fingers above your eyebrows to the bottom of your helmet.

Four fingers to make a "V" shape around the bottom of your ears.

One finger under the strap beneath your chin.

Did you know - students that walk or bike to school in the morning do better on tests and can focus better on their school work?

Prepare your bike

Your bike needs to be safe.

Every time you ride perform an ABC Quick Check.

- Is there sufficient **AIR** in your bike's tires?
- Do your **BRAKES** work properly?
- Is your bike's **CHAIN** tight and lubricated and does the pedal **CRANK** turn freely?
- Are the **QUICK-RELEASE** levers on the seat and wheels secure?

Take Care

Be seen - Wear brightly-coloured or reflective clothing.

Be heard - Use your bell or horn to let others know you are coming.

Be predictable - Ride in a straight line where possible. Use hand signals to indicate turns, lane changes and when you are stopping. Be aware of other vehicles around you.

Where and how to ride safely

Practice your signals, always starting with a shoulder check.

Left Turn

Stopping

Right Turn

Right Turn
